## Blends

What if we didn't hold anything back and blended all our thick dark strong coffees? It would sit in the cup like River Mud. The coffee flavor would be full and rich and fresh because it's Pacific Coffee. The blend enjoys almost a cult following in some circles.

This classic dark/light blend takes the best flavors from coffees that roast dark and coffees that roast well light. It is sweet with some toastiness and a medium body. In Sweden, where they drink more coffee per person than anywhere, these dark/light blends are very popular.

It's risky making a coffee so full flavored that is intended to be very concentrated. This espresso is crema laced bliss. So full flavored that it is excellent as brewed coffee as well.

## Indonesia

The king of full bodied coffees come from Sumatra. Ours is roasted dark to bring out it's earthiness and to complement the full body. It's a simple description, but there is more to this coffee. We have sold more of it in every one of our 20 years in business than any other variety.
